"Bayswater Bullets LAC 40th Anniversary Local History Project" Computer DVD

Back in September 2006 in conjunction with the Knox Historical Society, a joint application was made for a "Local History Grant" from the Public Records Office Victoria for the "Bayswater Bullets Little Athletics Club 40th Anniversary Local History Project" to be produced on a computer DVD.

This incorporated the Knox Centre history as well as the Little Athletics history itself, in helping to broaden the audience to enhance the chances of success for the grant.

This project, two years in the making, shows an unique insight into our sport

with a season by season club history, photos and many other club historical documents. Undoubtedly, this is the most documented history of any Little Athletics club in Australia.

For the broader audience, the final version of the "Little Athletics Early History" is a must for all involved in Little Athletics. The information gathered was from some of those who were there right at the very beginning - Little Athletics pioneers Christine Billingham and Alan Triscott who were both extremely helpful and generous in their time, advice and the many historical documents they had provided.

All documents on this DVD has been professionally menu authored on a easy to use interface, printed and duplicated by <http://www.diskbank.com.au/> and is available for \$10 each or \$12.45 with postage.
